

WEBSITE REBUILD PROPOSAL

Cathey's Lawn Care

Premium Website Redesign & SEO Package

Prepared for: Doug Cathey, Cathey's Lawn Care

Prepared by: Advanced Marketing

Date: March 31, 2026

Project: Complete Website Rebuild with SEO Landing
Pages

ADVANCED MARKETING

Project Overview

We've completed a full rebuild of the Cathey's Lawn Care website, transforming it from a basic WordPress site into a modern, high-performance, conversion-optimized web presence designed to generate leads and dominate local search results in the Greater Austin area.

What Was Built

1. Premium Homepage

A complete, modern homepage featuring 12 conversion-optimized sections:

- **Full-screen hero** with animated background, trust badges, and dual call-to-action buttons
- **Pain points section** addressing common customer frustrations
- **About section** highlighting 10+ years of experience and family ownership

- **Services showcase** with image cards for all 6 core services
- **Testimonials** featuring 6 real customer reviews with star ratings
- **How It Works** — 4-step process to make booking easy
- **Photo gallery** with lightbox viewer (12 images)
- **Video section** featuring Spectrum News coverage
- **FAQ accordion** with 8 common questions
- **Lead capture form** with server-side processing and email notifications
- **Footer** with full business info, social links, and service navigation
- **Floating phone button** for instant mobile calling

2. Lead Management System

A complete backend system for managing incoming leads:

- **Admin dashboard** at /admin with password-protected access
- **Lead tracking** — view, filter, and manage all form submissions
- **Status management** — mark leads as New, Contacted, Booked, or Closed
- **Notes system** — add notes to any lead for follow-up tracking
- **CSV export** — download all leads as a spreadsheet
- **Auto-refresh** — dashboard updates every 60 seconds
- **Email notifications** — get notified when new leads come in

3. SEO Landing Page Engine (48 Pages)

We built **48 unique landing pages** targeting every combination of your services and service areas. Each page contains ~1,300-1,400 words of original, SEO-optimized content tailored to that specific service and city.

Main Service Pages (6)

✓ Lawn Mowing

✓ Spring & Fall Clean Ups

✓ Tree Trimming

✓ Mulching

✓ Land Clearing

✓ Weed Control

Area-Specific Pages (42)

Each service has a dedicated page for every city you serve:

✓ Austin (6 pages)

✓ Round Rock (6 pages)

✓ Leander (6 pages)

✓ Lakeway (6 pages)

✓ Cedar Park (6 pages)

✓ Pflugerville (6 pages)

✓ Georgetown (6 pages)

Each area page includes neighborhood-specific content, local climate and soil information, area population and growth data, and targeted keywords like *"lawn mowing in Round Rock, TX"* and *"tree trimming Cedar Park Texas."*

Technical Features

FEATURE	DETAILS
Design	Clean, professional design with forest green + gold color scheme. Bebas Neue + Inter typography. Mobile-first responsive layout.
Performance	Zero dependencies, no WordPress bloat. Static HTML/CSS/JS loads in under 2 seconds. Hosted on Netlify's global CDN.
SEO	Schema.org LocalBusiness + Service markup, XML sitemap (49 URLs), robots.txt, Open Graph tags, optimized meta descriptions, proper heading hierarchy.
Lead Capture	Contact form on every page. Serverless backend (Netlify Functions + Blobs). Honeypot spam protection. Email notifications.
Admin Panel	Password-protected dashboard at /admin. View, filter, search leads. Update status, add notes. Export to CSV.
Navigation	Services dropdown menu with links to all 6 service pages. Smooth scroll on homepage. Mobile hamburger menu with service submenu.
Gallery	12-image gallery with lightbox viewer, keyboard navigation (arrow keys + escape), and touch-friendly controls.
Accessibility	Semantic HTML5, ARIA labels, keyboard navigation, proper alt text on all images, focus indicators.

SSL	Free HTTPS certificate via Netlify. All traffic encrypted.
Analytics Ready	Clean HTML structure ready for Google Analytics, Google Search Console, and Facebook Pixel integration.

SEO Strategy

The 48-page SEO strategy targets **high-intent local search queries** that potential customers use when looking for lawn care services:

Keyword Targeting Examples

SEARCH QUERY	LANDING PAGE
"lawn mowing austin tx"	services/lawn-mowing-austin.html
"tree trimming round rock"	services/tree-trimming-round-rock.html
"mulching service lakeway texas"	services/mulching-lakeway.html
"land clearing cedar park tx"	services/land-clearing-cedar-park.html
"weed control pflugerville"	services/weed-control-pflugerville.html
"yard cleanup georgetown tx"	services/clean-ups-georgetown.html
"lawn care near me" (Austin)	Homepage + all Austin pages

Each page is internally linked to related services and area pages, creating a strong internal link structure that helps search engines understand your site's authority across all service areas.

Image Assets

The site includes **80+ images** sourced from your original website and supplemented with high-quality stock photography:

- 27 original images from catheyslawn-care.com (logos, service photos, hero images)
- 57 professional stock photos organized by service category
- 1 video file (Spectrum News feature on water restrictions)

Hosting & Infrastructure

Component	Provider	Cost
Website Hosting & CDN	Netlify	Included
SSL Certificate	Netlify (auto-renewal)	Included
Serverless Functions	Netlify Functions	Included
Lead Database	Netlify Blobs	Included
DNS Management	GoDaddy (existing) or Netlify	Existing
Code Repository	GitHub	Included
